TOUCH TYPING COURSES - SUMMER 2025

For children currently in School Year 4 to Year 7 (age 8 to 12 years)

Learn /improve typing skills in a week using Nessy Fingers typing programme.

Touch typing is a valuable skill because of the universal use of computers in education, at work and in life, but even more so for anyone with learning difficulties as it can be a breakthrough, giving a tool to communicate and express ideas freely.

Touch typing means typing without looking at the keys and can be very fast and accurate. Touch typing frees up sections of the brain to think - and once mastered, is easy and faster than handwriting.
